### **WET Private Label Policy for Cleaning Products:**

#### **Customers' Responsibilities:**

- Purchase of 25 pallets minimum (combined products)
- Provide Labels
- 50% Pre-paid funds to start the order, 50% before shipping
- Minimum of 6 pallets per product (this is our minimum production capacity)
- Shipping pre-arranged before production begins. Product must leave our warehouse within 2 business days after the order is completed

#### **WET International, Inc.'s Responsibilities:**

- Complete production within the pre-arranged time
- Meet the established quality for each product
- Package products for transportation according to the standards to meet DOT and Class 55
- Provide the technical assistance required for the customer to produce a label that meets Consumer Safety Regulations and DOT for hazardous materials (according to C.F.R. 49 100 to 177)

#### **How to start the process:**

- Customer decides what product(s) are going to be purchased
- Customer contact WET International, Inc with the appropriate department to develop the label
- Customer approves the label and ERN listing requirements (customer can sign a refusal of adding this information to the label, releasing WET International, Inc. of any liability)
- WET International produces samples of each product to be kept (upon agreement) as comparison standards
- Customer provides labels and deposit
- WET starts the order, communicates completion, schedules and communicates to the customer pick up schedule

#### **Forms of payment:**

Cash, cashier's check, money orders, wire transfers, bank deposits, credit card (add 3%), company and personal checks (after clearance).
